Auctioneer's Comment: Mr. Anton has an outstanding collection of trucks, tractors and cars. All the items are completely restored except for the few that have not been painted. Mr. Anton has ALWAYS been very meticulous about his restoration projects. THIS IS AN AUCTION YOU DON'T WANT TO MISS!!!

61 Loadside with 23,000 original miles. Great, original condition except for one one respray, reportedly at GM expense so the respray is over 50 years old! Truck has Greenbrier emblems from new which is confusing. If I recall correctly, the dealer said he has found some documentation that this was correct at the time of production although it does not show in my 1961 data book. Truck has few options.

'65 Rampside with custom interior and exterior packages. Restored, white with red middle stripe, looks very sharp.

Additional comments from Chuck Johnson:

If Clem has them, they are good. All his vehicles get exercised and that is a major reason for him culling his collection. In addition, large number of antique tractors, crawlers, and trucks are in the auction, as well as TWO Crosleys!
