Treasurers Report:

Dick advised our bank balance to date. Also, he gave a run-down on a membership summary:

- We presently have 23 paid members
- He is checking through the membership list. Inactive members listed will be taken off the new list presently being developed.

A completed member list was sent to CORSA along with our club filing fee.

New Business:

- 2) Planning for an annual Banquet was discussed. The Banquet will not be held during the Christmas holidays as per the last couple of years.

I hope everyone has had a good month and I am looking forward to seeing you in October.

John Dawley

Pat Murphy always seems to get the best parking spots when bringing along one of his boats. Makes for an interesting display.

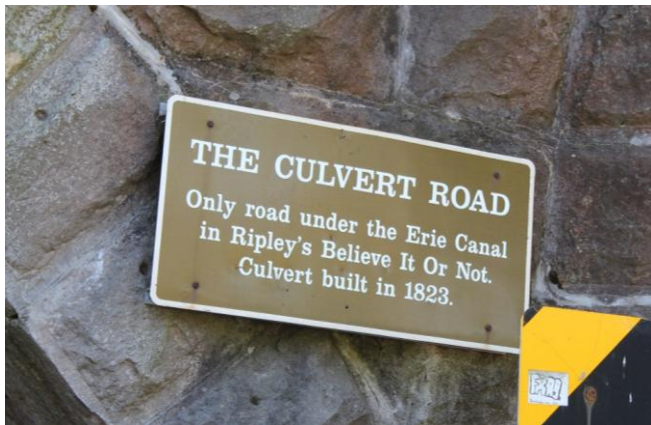

Anyone know where I'm at?

Will it fit? Looks really small on the other end.

And it's dripping, a lot

On my way back from the September to Remember Car Show and Swap Meet at the Orleans County Fairgrounds. I took a slight detour down Culvert Road to see if the Greenbrier would fit through the tunnel underneath the Erie Canal. It did. Yes this is the only road under the Canal which makes it kind of an oddity. And yes, there is constant drippage where the canal is leaking into the tunnel. My wife absolutely hates tunnels, and especially this one. A bit claustrophobic. Culvert Rd is just east of Medina off Rt. 31

It's things like this that make the newsletter interesting to readers. If you are out and about with your Corvair, think about what would be a good background for a picture. A Welcome to whatever sign. A train, plane, building, etc. Document your journeys and share it with others. Remember, most of you carry cell phones which have a camera feature.

Here's a shot of the van at the September to Remember Show at the Orleans County Fairgrounds. Saturday is "Truck Day" so the Greenbrier fit right in.

Tom Koprevich is plugging away at his blow through turbo 140 build.

Carbs mounted, linkage installed

Tom had to make custom longer bolts to hold on the intake

No leaks at 30 PSI

Mocking up intake getting ready to weld

Tom made a custom fixed orifice pipe.

Read the complete build on Corvair Center
<http://corvaircenter.com/phorum/read.php?1,1010817,page=9>

Welded ports for boost return valve, crankcase vapor return and methanol injection to air filter mount.

Intake manifold welding is done with second methanol injection port. Will be powder coated when all is done.

Lookin impressive

Attention NFCC members! There may be some door prizes at the October 16th meeting. And for those interested, dinner at the Anchor bar on

Can't wait to see and hear it.

Maple Road at 5:30 PM. Call or email me if you are going.....Gary
