DACC VALVE COVER RACERS, JOIN THE FUN.

June 2025

From The Dashboard of Your DACC President,
Tom Murray guitar_mechanic@yahoo.com (13)

Hi campers! It's the final countdown to Homecoming. I'd sing the song for you, but I don't think it would come through well in text... Please, if you have items for the goodie bags get them to Lori! Build your valve cover racer. Book your room. Pack your sunscreen. Bring door prizes and auction items. In the past, the Dexter barn provided a lot of auction items. This year, maybe not so much. So, please help fill in the gaps by bringing things that need to be "re-homed". We have one more meeting together at the 300 Bowl before it's party time. Let's wrap this thing up!

I have officially started my valve cover racer. Yeah, it's some assembly required. ;)

Cheers! Tom.

Dues are Due!

It is that time of year again when DACC memberships are due for the upcoming year. As you are probably aware DACC tries to keep the dues cycle starting in June. **In July we don't have a club meeting at the 300 Bowl** but instead we have fun at Homecoming. In your Homecoming packet will be a renewal envelope to pay your dues. After Homecoming I will create a list and it will be published in the August Aircooler and if payment is not received by the 15th of August, you will be dropped.

Lori ~ Membership ■

Homecoming

I would like to thank those who have stepped up and helped with some of the pre-event tasks. **I am still looking for help getting goodie bag stuff** needed by the June meeting and door prizes bring to June meeting or to hotel [Thursday](#) morning. **Please don't forget to gather your unwanted goodies to auction off at Homecoming.**

We always need help in the hospitality room. It might be just doing some prep work, serving, and cleanup. At the June meeting I will be sending around my help needed sheet. Looking for people to help with the Hospitality room, Serving Pizza, Tech Sessions, Unloading trailer on [Wed.](#) after 4. And hopefully if it can be pulled off, I would need help with a new event Funkhann (driving event).

The room block for the hotel will be open until [June 8th](#). Please book your room, you can always cancel 48 hrs. in advance. After [June 8th](#) the rates go up. Also remember that we do A and B seating for pizza night. It is determined by the date registered. So, get those registrations in.

My Corvair odyssey.

At the moment, I own only one Corvair. It's the 4th Corvair I've owned. The other three were a '66 140HP Corsa coupe that I bought in December of 1971 and two '69 500 coupes that I bought sometime later. At no time during this period did I own more than one Corvair. Both '69s were 95HP with a 3-speed and ended up being scrapped. Unfortunately, I didn't save the VIVs for the '69 registry. There was a gap of about 15 years when I didn't own any Corvairs. I bought my current Corvair in June of 1994 from the insurance money when my 1986 Dodge Omni GLH Turbo was totaled. It is a 1966 140HP Monza with A/C and Corsa badging and the previous owner was upfront in telling me that. One of the things that attracted me to the car was that someone had customized the front with tunneled headlights. I liked the look, so I bought it. He also included a spare 140HP engine. The tires on it were so bad that I had traction problems in the rain, so I bought a set of BF Goodrich Radial TAs which were a world of difference better. The car was originally sold in Arizona, and I have no idea how or when it got to Michigan. Since purchasing the car, I have made numerous changes to both the mechanicals and body of the car. Since the previous owner included the warranty booklet with the car, I know that it had the original engine. At some point before I bought it, someone swapped out the stronger '66-'69 4-speed transaxle and put in a '65 transaxle. I bought a '66 transaxle off of eBay and had it as a backup if the '65 transaxle broke. In. 2005, it broke (fresh clutch, wide tires and a 1-2 speed shift), stripping the input gear and counter gear of all teeth. At that point, I was glad to have the later transaxle and discovered the issues with the difference in length, mostly with the shift rod. The other major mechanical change was in 2015 when I swapped out the engine in the car for a completely rebuilt engine. Prior to that, I had put the spare engine in the car, so the rebuilt engine had the original crankcase (and not much else). One of the first things I did to the interior was to replace the stock steering wheel with a smaller aftermarket wheel. Later, I switched to a slightly larger aftermarket steering wheel but still smaller than the stock one. Surprisingly, the seats were in pretty good shape despite coming from Arizona. However, the seats had cloth inserts so I'm pretty sure they were reupholstered before I bought it. Unfortunately, the seat foams were deteriorating, and my seating

position was gradually getting lower. I found some bucket seats I liked on eBay and as I couldn't find a bench seat that went with the bucket seats, I decided to buy four and have bucket seats in both front and back. That was around 2006 and at about the same time, the A/C compressor clutch decided to come apart which forced me to upgrade the A/C system. That, along with other mechanical upgrades, was published in earlier Aircoolers. After ten years, the rebuilt engine seems to be showing some wear, so I'm working on that as well as some suspension work on the front end. What I've shared is just an overview, since going into all of the details of owning my Corvair for over 30 years would result in a VERY long article. I'm including a before and after picture to show how the appearance has changed as well as a picture of the wrecked GLH that brought me back to Corvairs. ■

I received an email from a previous member. His project got interrupted and he has lots of parts for a late model Corvair. Most are still in boxes from Clarks and attached are photos he had provided. He will entertain a discount to anyone who buys the entire lot. His name is Russell and if interested, his contact information is, phone; 513.503.8526, email; bitwhacker@bitwhacker.com. The parts are located in Clearcreek Township, Ohio (State Route 48, between SR 73 and SR 122).

Sloan Summer Fair show in Flint

Every year in May I write something for the Aircooler about the Sloan Summer Fair show in Flint. Years ago, we had 20+ Corvairs on display but for some reason the last few years it has been less than 10. Some of our "old timers" have passed on or sold their cars but there are a lot of new people, both dues paying members and those on Facebook. There have been some changes in the show since the first one in the early 70's, like going to a two-day event. What I have seen is [Saturday](#) has turned into the "big" day with more cars and people and [Sunday](#) a little less attended but still a good number of people. Late June is also a time for graduation open houses and family vacations so maybe that comes into play. I go both days but still like to stay all day on [Sunday](#) and watch everyone drive past our reserved area on the way out. Speaking of that, we have one of the best parking spots in the show field, lots of shade if it's hot and sunny and easy to find just past the check-in tent. If we don't have a good turnout we may lose this cool spot. Being that Brian and Marvin Granger are involved in both our club and the Summer Fair Committee helps, but **WE NEED TO SHOW UP AND SUPPORT THIS SHOW**. You can mail in the paper registration form that will be available at the June meeting, register online or show up and register at the tent when you get there. The profit from the show goes towards supporting the automotive collection of the museum. Several years ago, it underwent a 26 million renovation and is a great science and learning center for kids, maybe not the history and car museum it was years ago but there are a lot more 8-11-year-old kids that will enjoy the exhibits. And not as many "old" people that like to see old cars parked in a building, would we rather see them on the grass and rolling down the road. You can enjoy a really good grilled Kogel hot dog or a burger from my friends at Hot Dog Heaven and wander around the grounds checking out all the different cars and trucks that attend this annual event. I-75 North is under construction, but you should be able to roll along OK to I-475 North that is also under construction. My suggestion is to avoid the freeways and just take Dixie Hwy North through Grand Blanc, stay on Saginaw St into Burton and Downtown Flint and enjoy a ride on the "new" bricks of Saginaw St. Turn RIGHT on Kearsley St. just past the Flat Lot Five Automotive Heritage Statues, there is a large Flint sign on the corner. Kearsley St. will take you through the U of M Flint Campus. Just over the freeway turn Left on the service Dr. at the light and then make a Right on Longway Blvd and follow the signs to the show car entrance on the right. Look for all the Corvairs on the left as you enter the grounds. There is more to see than just old cars and trucks, you can check out the Applewood Estate, the former home of C.S. Mott, a former Corvair owner, Founder of GM in the early years and a Philanthropist who helped build Flint into the Automotive powerhouse of the early 19th century. See registration attachment.

Activities by Raven Hand

Your mostly crazy activities director here fresh back from the Back To The Bricks Dust-em off show. After an annoying start to the morning with the Shriner car being temperamental, I managed to miss breakfast with Brian and Bruce Granger. Completely missed Kerry Borgne as well and Don. However, hooked up with a few more Corvair buddies and drove in with them. Kerry counted 10 Corvairs at show and I did meet 2 very lovely couples whom 1 couple had a very nice early coupe, and the other had a nice late convertible. Mike and Sue Harrison also made an appearance as well as Alan Eilish (probably completely butchered that name) sorry Alan. Over 1000 cars were registered and despite unreasonable cold weather it seemed like most showed up, same with spectators. I included some pics for you to enjoy

* see ya at meeting Raven! ■

It's ice cream time, Corvair to your favorite spot and enjoy a treat.

## DETROIT AREA CORVAIR CLUB

# 2<sup>ND</sup> HOMECOMING

### THIS IS IT

We hope to see all the club members at our big event. If you have not yet registered please do so now or call me at 313-759-4865...bring your friends and neighbors. But hurry as we must notify the caterer for the buffet.

Saturday morning starts with the Swap Meet and Gymkhana with the Road Rallye in the afternoon and the Buffet in the evening. The Buffet will feature excellent food, coffee, pop and ice. but please BYOB if you wish. There will be door prizes (how would you like to win a \$50.00 gift certificate for your choice of Corvaire parts?) and a raffle. However, you MUST BE PRESENT to win.

Sunday the Swap Meet will continue and the Concourse will be held at the G. M. Technical Center. G. M. will provide hoses and water in the early morning to prepare the cars for showing and the Warren Jaycees will provide food and drink. Be sure you have film for your camera and gasoline as well as anything else you may want because there are no services on the Tech. Center grounds.

I could still use more help. Friday evening all the cars must be moved from Hamilton's garage and used car lot....Saturday jobs are traffic director, ticket taker, rallye check-point workers and buffet set-up helpers....Sunday requires traffic directors, ticket takers, and of course, the job everyone wants....clean up of the swap meet area and the moving back of Hamilton's cars. Please help if you can....call me.

*Thanks, Ken Fepke*

### JUNE MEETING

Thursday, June 5, 1980

Everyone who made the meeting last month enjoyed being back in a restaurant again. We will be meeting at Howard Johnson's at Northwestern and Ten Mile Road, having supper at 7:00 and the meeting at 8:00. The program will be a movie on an automotive related subject, according to Pete Theisen, our Program Chairman. This month let's all try to park on the east side of the building; this way we can see our cars during the meeting and the good cars will be protected from the in-and-out traffic of the main restaurant.

### THANKS TO MATTHEWS-HARGREAVES

Pete Cimballa

Our special thanks and appreciation to Tom Allen and the other members of M-H who put in 14 hour days and stayed open after hours to accommodate our group, for they did a super job for us when we needed them. Thanks again guys!

### SUMMER FAIR IN FLINT

June 22, 1980

Plan to make it to Flint on Sunday the 22nd for the Sloan Museum Summer Fair. This is a swap and Swap meet open to every type of car that would like to enter. This all day affair has always been one of the best attended meets in the state. North on I-75 to I-475 to the end, then take service drive north to Kearsley Street then right 4 blocks. Follow signs.

THEN LETS GO TO ST. IGNACE ON THE 28TH OF JUNE. SEE COMING EVENTS, BACK PAGE

## MILEAGE ROAD TOUR

- 2 -

Whoever said "the more the merrier" was not a Corvair Road Tour enthusiast. The people in the small group of eight cars participating in the tour seemed to really have an enjoyable day. Seven of the cars checked in at the finish, one car decided to take a side trip to view the city of Romulus. But a first was set, all ten cars, including the committee, when parked at the restaurant were Corvairs. Yes, even Jerry Moons drove one of his. Special guests of the day were Velma and Bill Klotz and Sharon and Rick Klotz of the Ohio Friends of Corvair club. Our thanks to Hathaway House in Blissfield for providing a lovely room and luncheon buffet for our enjoyment. For those of you who would like the answers for the tour: The first half of the tour you should have driven 39.4 miles and the second half 8.7 miles, making a total of 48.1 miles that you should have driven from the start to the finish in Milan. The answers to the questions: A. Stevenson High School, B. Willow Run, C. DeVilbiss, D. Lighthouse Point Apartments, E. Lemon Tree Condo's, F. Woodstone, G. Electrical & Electronics Division-Rawsonville Plant, H. JYRO, I. McEnnen Airport, J. Joyland South, L. Timberland Place, N. Milan.

## REPORT ON MAY MEETING

The new meeting place of Howard Johnson's restaurant was declared a success with eighty-six people in attendance. A tech session program by "Norm the Painter" drew many questions and interest in viewing his pictures of cars in restoration progress. Brad Westervelt was congratulated for winning the first place trophy for the Autocross at the Bryan, Ohio meet last Saturday. The 50/50 winner was David Loba and David West lost \$10 in the chip dip by not attending; so \$15 is available next month. We were pleased that many people, viewing our 'vairs in the lot, came in to join in the evening.

## CONVENTION ACCOMMODATIONS

The motel chosen for DACC (by us) at the CORSA Convention is the Holiday Inn-North Marietta. See the back of your Communique for more information.

## VOTE FOR CORSA DIRECTORS

Don't forget to vote for three directors from the Central Division. In case you hadn't noticed - Tom Thomson from the new Northern Michigan Club, #1 Team Corvair is running!

## ODDS AND ENDS FOR CORVAIR FRIENDS

Pat McCarthy

People and Places for Service:

Ken Hand, Jr. 165 W. Beverly, Pontiac, MI 48055. Phone 332-8412

Mr. Hand is a Certified Aircraft Mechanic which is a real advantage for our air-cooled Wonders; most light aircraft use this type engine. Mr. Hand has ten years experience in servicing Corvairs and I feel sure he will give prompt, reasonable, honest service and prices.

Farmington Hills Auto Parts. 29240 Grand River, Farmington, MI 48024 Phone 476-4655  
They have a full supply of engine rebuilding parts for Corvairs, especially in the oversize bearing area.

Remember, it is always in the best interest of Corvair Owners to have a complete estimate of repair costs before agreeing on service to be performed.

## ANOTHER GOOD WEEKEND AT THE TRI-STATE MEET

Pete Cimbala

Once again everyone who spent some time in Bryan, Ohio had a great time. Nine cars went in convoy and 2 or 3 more, who were not far behind, found the way to Stan Pebble Motor Sales. I am sure we had as many members there as the local club did, for every time I turned around there was another DACC member. This was great for them so let's hope they turn out in force at our Homecoming. As for the events, our own Brad "the shoe" Westervelt placed FIRST in his class in the Autocross at the local "round-D-round" track.

## NOTE FROM THE EDITOR

Many thanks to Marilyn Westervelt for typing page two for me. I fell roller skating and broke my right wrist, so typing has been a real chore. Maybe I should stick to Corvair tires for my wheels!
