PREZ SAYS

Greetings,

Where did May go on us? It's June already and July is just around the corner. Check out the articles in this issue about the Pawnee car show and

what turned out to be a Corvair related event at World Wide Technology Raceway. I had a blast driving a Crown Corvair around the track along with new high-performance Porsches and Corvettes. It certainly drew lots of attention.

Two events are coming up on us quickly. Cars and Coffee is at Fast Lane on July 12 and right on it's heels is the Memories Car Club show on August 1st at Faith Church. It will be our first time at Fast Lane, and if you are looking for a great show to bring your car to you will want to show up at Faith Church.

Let's get them out and drive them. A list of summer shows and events is included in this newsletter.

See you on the road,

Kent

Whoa! Do not use your package tray as a baby bed. Heck, don't use it as a bed for anyone—or anything. Remember the 50's and 60's when the back window shelf in most cars was large enough to sleep on? What a bad idea that was. Your Editor remembers sleeping on the back window shelf of a '58 Buick while my big brother slept on the seat. My Dad hit the brakes during a long road trip and I landed on top of my brother. I can still hear him groan. After that Dad built a shelf in the rear seat footwell and I slept there on long trips. Guess Nader missed this little safety issue.

Pawnee Prairie Days Car Show

Road Trip! Several members of the SMCC joined members of the Prairie Capitol Corvair Association for a road trip and car show at Pawnee Prairie Days in Pawnee Illinois. It was a stunningly beautiful day and a great turn out for the show. Our Corvairs were highlighted and held a prominent place parked on the road along the edge of the show. There was good food, music, great cars and plenty of time to catch up with old friends and new. Matt Young, one of the PCCA members won an award for his nicely restored blue and white late model four-door 500 which had been owned by his grandfather. He searched for the car for several years with no success, just to find it a few miles from his home near Pawnee. He identified the car by a dent in the hood and painstakingly completed the restoration.

SMCC members included Kent Goddard, Trevor Monninger, Charlie and Nathan Geiler, Larry "Fanbelt" Pratt, Mark Moyer, The Kost's, Jack Holahan, Carleton Briggs, Mike Hall, and possible new member Brandt Teske. The PCCA rounded out our entourage with five members of their own, and we probably missed counting a few.

On the way up Highway 55 to meet up with the PCCA group Larry Pratt threw a fan belt and came close to melting his engine. Quick work by Trevor and a fanbelt loan from Kent solved the problem and we were on our way in less time than it takes to say serpentine. Larry promises to never be without a spare belt again and had no additional mechanical troubles for the day.

After saying goodbye to the PCCA members some of the SMCC group drove to a section of the original 1926-30 Route 66 alignment for a photo shoot on the red brick road before driving home. Photos below and on the next page.

Top: We met up with PCCA members and got ready to mount up.

Right: That's Larry wearing the shredded fanbelt necklace and a BIG smile. He had good reason to smile after Trevor and Kent came to the rescue.

If it isn't broken....

SMCC Members at the Race Track

The saying goes, "If it isn't broken you're not driving it hard enough." Well, SMCC members Trevor Monninger, Kent Goddard and Mark Moyer all broke their cars at the track the weekend of May 17th, but they managed to stay in the race. The trio were participating in the Porsche Club of America's High Performance Driver Education program at World Wide Technology Raceway in Madison, Illinois. The HPDE program allows aspiring racers to drive their cars on the WWTR two mile road course along with an in-car instructor. Kent is one of those instructors. It is a great way to learn and practice high-performance driving and prepare for higher levels of actual racing. Drivers are on the track at the same time but passing is allowed only in certain sections and only if a driver receives a wave-by from the driver in front.

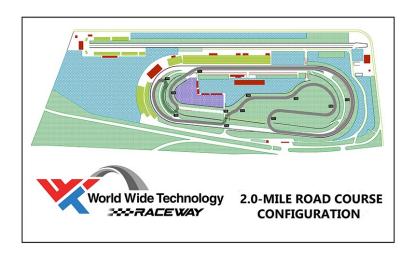

In short, it's a blast! There are fast cars, noise, roaring and high-revving engines, instruction time, and the smell of exhaust, oil and fuel. It is awesome until something breaks. And break it did. On day one all three guys broke their cars. Trevor's hot twin-turbo BMW suffered a broken clutch pedal mechanism, Kent's built for the track BMW was hampered by a bad wheel stud, and although Mark's '95 Corvette made it through day one, the brake booster went out on a highway exit ramp near his home. That was scary, but not as scary as if it had gone out at the end of the long straight at 120 mph. So where is the Corvair content in this story you might be saying. Read on.

Trevor and Kent worked in Kent's "Garage-mahal" until the wee hours of the morning and managed to get both their cars repaired. Unable to find a brake booster for a thirty year old car Mark resigned himself to staying home on day two and told his instructor he could also sit out the day. Then, Mark's wife Joyce suggested he take the '66 327 Crown Corvair to the track. When Mark explained that cars must pass a pre-race tech inspection Joyce suggested that surely somebody at the track would check the car for him. Thanks to Joyce's suggestion Mark drove the Corvair to the track and both Mark and Kent were able to drive it. Kent subbed as Mark's instructor, then took the wheel to show how to really put the car through the paces.

The Crown car was not as fast as most other cars on the track, but held its own against the Porsches, Teslas and BMWs when Kent was behind the wheel. Hearing that four barrel kick-in was a throwback to the 60s and the Crown got plenty of attention in the paddock between races. But that is not the end of the story.

A few days later Trevor borrowed the Crown to show his fellow techs at the Porsche service center in the Chesterfield Valley. The guys loved seeing the car, but as Trevor was returning it to Mark the clutch cross shaft broke and the pedal went to the floor. Apparently we had been driving it hard enough. No worries, the repair is already in the works and the car should be back on the track soon.

Photos on the following page.

Above left: The gray lines indicate the road course. Cars reach speeds of 150+ mph on the straight at the top of the image, but races are won by taking the curves well. Above Right: Kent, Trevor and Mark.

Below: The guys with their cars after day two driving.

Anyone know the car or

good prospect for a new

love the rabbit ears.
