### GENERAL INSTRUCTIONS

This Maintenance Log is made up of three sections, the Job List, the Job Details, and the Mileage Log.

#### Job List

Enter information about any current or upcoming maintenance tasks here. If a part list or other job detail information is needed, reference the starting page for those details.

#### Job Details

Enter detailed steps, parts needed, and time spent on this job here. Parts and time logged can reference a specific job step number. If additional pages are needed, reference the next additional page at the bottom of the form. Pages need not be in order and can be 'daisy-chained' together.

IMPORTANT: REMEMBER TO NUMBER YOUR PAGES

#### Mileage Log

Whenever you fill up with gasoline, change the oil, or any other significant event, log it here. Additional columns are provided for calculating fuel economy.
