

TECH TIP NO. 99-03

## UltraVan

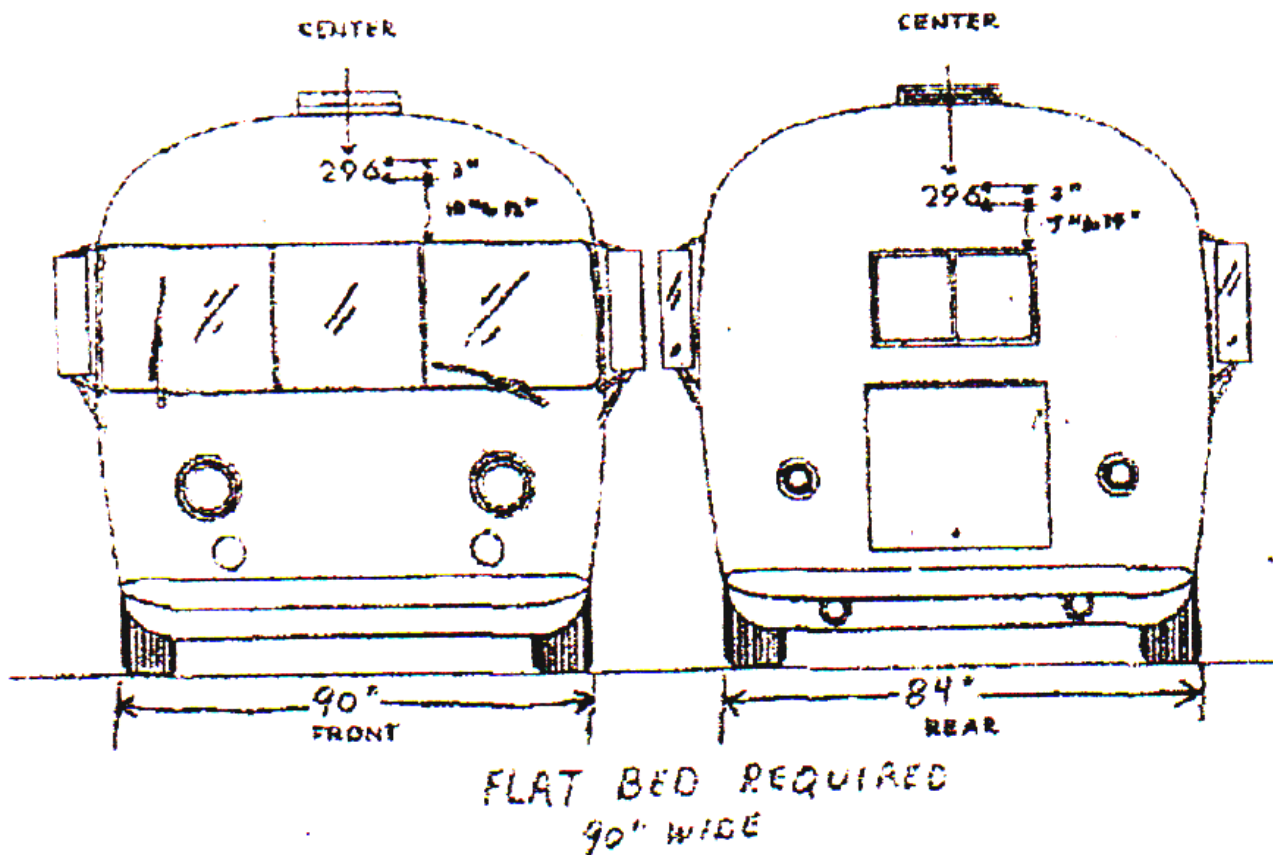

UV MANUAL SECTION 01-03

McMasters #330

SUBJECT: **Hauling an**

AUTHOR: Jean

Even though we have always driven our Ultra home and have never had a reason to have one hauled, it is still important to know what size ROLL-BACK or FLATBED trailer is needed. Picture #1 below shows the width of the UltraVan and the wheelbase is 152 inches. Overall length is 264 inches. Weights range from 3,000 to 6,000 lbs. The height is 8 feet without A/C and 9.5 feet with.

[2010 Ed. NOTE: Front track is 88" to 90.5" depending on the width of the tires and rims- 88" with 185R-14 tires on 6" rims and 90" with 225/60-15 tires on 7" rims.]
